SPA

Oasis HCB Series

Treat yourself to a better way of living.
You deserve it!

**The ultimate relaxation experience.
Embrace a brand new, healthier lifestyle.**

In today's busy world, the constant pressures of work and life often leave us mentally and physically drained. Finding moments to relax can prove to be challenging.

If you're looking for a better quality of life, there's a convenient solution – a luxurious spa in your own home. It lets you enjoy a soothing soak and massage, helping you achieve a perfect balance of body and mind. Take time to savour the leisurely moments and appreciate the beauty and joy of life. Treat yourself to a professional-grade hydro massage spa and create your own wellness retreat.

Ingenious
design for
maximum
comfort

Graceful lines

Our design draws inspiration from graceful lines, offering a holistic and soothing massage therapy from your neck to your feet.

Soft, non-slip, chemical and ozone resistant steps provide a luxury and safe entry and exit from your spa.

Safe and comfortable spa experience

Pristine white & elegant grey

Subtle shell and cabinet colours compliment the clean, modern lines and premium design of the spa.

Creating the perfect massage

Point map massage jet layout

Oasis Spas combine precision massage and a scientific seating layout to offer the proven benefits of hydrotherapy and the stimulation provided by hydrotherapy massage - using targeted water jets to loosen muscles, stimulate blood flow and create a total body feeling of wellness.

Unleash surging force

Elevate your hydrotherapy experience with our cutting-edge high-power massage pumps. Delivering a powerful yet soothing hydrotherapy experience via an array of adjustable stainless steel jets.

Diverse jet combination

Different jet configurations on each seat provide a varied and targeted massage for different muscles groups.

Full body massage recliner

Experience the relaxation of your entire body all at once - from your neck to your toes.

Accu-pressure back massage

A number of accu-pressure jets are used in one seat to precisely target pressure points in the back and lower neck.

Foot massage therapy

With more nerves and muscles in your feet than anywhere else there's no doubt why everyone loves our foot massage jets.

Customise Your Own Massage Experience

1. Precision-crafted stainless steel hydrotherapy jets.
2. Each jet can be easily replaced and are interchangeable (of the same size).
3. Adjust each jet individually for a great targeted massage.

2 Inch Jet Internal-Directional

3 Inch Jet Single-Spin/Twin-Spin

4 Inch Jet Single-Spin/Twin-Spin

5 Inch Jet Single-Spin/Twin-Spin

More room more comfort

Traditional hot tubs often have wasted space around the edges, limiting your ability to truly stretch out and unwind. At Oasis Spas, we believe in the power of "**More Room, More Comfort**", meaning that you won't be cramped or confined.

Stretch your legs, find your perfect seating position. Our carefully engineered design provides a roomy interior that allows you to fully enjoy your hydrotherapy sessions. While our spas may have a small floorspace, the interior space is remarkably spacious, thanks to our unique maximisation of space.

Invigorating Hydrotherapy Jets

Each Hydrotherapy jet is positioned perfectly to loosen the tightest knots in your neck and shoulders, lower back, legs, and feet.

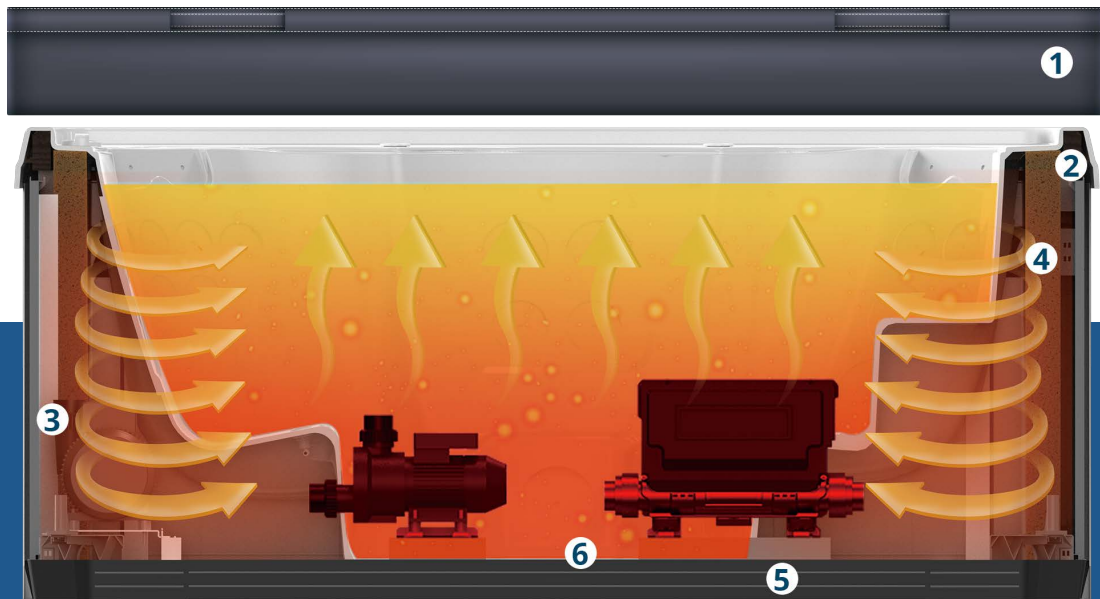

Ergonomic seating

With 3 decades of experience, our spas are designed to ensure even the longest soak is a comfortable one. The design maximises the space within the spa to ensure that everyone has plenty of room to truly enjoy their experience.

Power Saver Insulation

6-Stage Platinum Lock Insulation System

1 High density foam cover

High-quality hot tub cover with high density core foam and aluminium reinforced centre supports. Premium vinyl cover which is durable and easy clean, supplied with 4 safety locking straps and easy lifting handles.

2 Edge foaming

This new system of edge foaming insulation is sprayed to the upper lip inside of the spa helping to make a draft-free, heat-tight system.

3 Thermo shield side skirts

Thermo shield aluminium side skirts are constructed from 2 layers of aluminium and 1 layer of plastic, finished in a stylish, weatherproof grey woodgrain finish. This not only gives a stylish look, but is stronger and more energy efficient.

4 Platinum Lock Insulation Material

This highly flexible insulation leads the way in heat retention and is made up of 25mm high density sponge foam and 1mm aluminium heat shield.

5 Solid plastic base

A solid plastic base creates not only a strong support system but also helps with heat loss and keeps rodents and pests at bay.

6 Base Insulation

Triple layer insulation is a more effective way to protect against heat loss made up of 2 aluminium layers and 1 foam

400w Preheated Airjet Massage System

In addition to powerful hydro jets, Oasis Spas hot tubs also include a soothing, pre-heated air bubble massage system.

Energy Efficient

The air is pre-warmed by a 400w heater before being added to the spa, reducing energy consumption. This minimises the temperature differential between the water circulating in the spa and the much cooler air being drawn into the system — increasing user comfort and easing the heating burden on the spa's primary heater. If used alone, the 400w air massage system uses just 20% of the power of the hydro pumps.

Fun with bubbles

The enhanced air massage system is made up of an array of stainless steel air jets around the lower circumference of the hot tub, providing a soothing massage.

Quiet operation

Using up-to-date technology, it runs significantly quieter than jets and traditional air blowers so that it won't drown out your conversation or relaxing music.

Enjoy unrivalled water purity

Our efficient antibacterial filtration system provides crystal clear, food-grade water.

Ozone mixing chamber vastly improves bacteria reduction

Unlike other hot tub brands that simply pump ozone into the middle of the spa, affecting just a small portion of the water near the outlet, Oasis Spas use a proprietary mixing chamber to pre-treat the water with ozone before adding it to the spa. This greatly increases the efficiency of the ozone, with a massive proven reduction in free-floating bacteria and germs.

Free-Floating Bacteria

Standard spa without ozone mixing chamber

Oasis spa with ozone mixing chamber

High efficiency filtration

2x highly efficient blue filters quickly remove debris from your spa, ensuring a safe and clean experience is always ready for you.

Food-grade water quality

Enjoy food-grade water quality with NSF food-grade hoses, ensuring that the water meets drinking standards and protects you and your family from harmful chemicals.

Energy-efficient

Powered by a high-performance pump, our system ensures low energy consumption and efficient energy-saving, allowing you to relax and enjoy your spa worry-free.

Easy control at your fingertips

With 18 years of experience, the SPATECH control system offers a new world of possibilities for spa users.

The state-of-the-art hot tub pack features integrated WiFi connectivity, meaning easy and convenient control of your spa, whether you're at home or away.

- High class warranty up to 5 years
- Power saving monitoring
- Water free touchscreen
- Engineer friendly
- WiFi controller
- Heat pump compatible*
- Smartspa TM

The new fully-featured TP10 system from SPATECH includes all the premium features you'd expect, and offers the perfect balance between style and functionality.

6 mode settings let you take full advantage of your heat pump to optimise your savings: Eco Heat, Smart Heat, Eco Auto, Smart Auto, Cool, and Electric.

Thanks to its simple and efficient configuration, the bright LCD touchscreen keypad is intuitive, user friendly, and simple to operate

Customisable maintenance reminders can be set to remind you to perform tasks such as filter cleaning and water changes when needed

4 x Preset modes allow you to choose the best suited to your spa needs and maximise efficiency and reduce running costs: Standard, energy-saving, vacation and sleep mode.

Play your favourite music directly from your spa with a high-quality, integrated Bluetooth stereo system

Integrated WiFi gives you full control of your spa via a convenient smartphone app, whether you're at home or away

Full touchscreen control

Choose your favourite tracks or playlists from the intuitive touchscreen

Lose yourself in music with a premium integrated audio system

Includes hidden transducer speakers & subwoofer

Unlike traditional speakers that produce sound waves that travel through the air to reach our ears, our transducer speakers are attached discretely underneath the shell, and are designed to transmit sound waves directly through the water.

This means that you won't just hear your music, but you'll actually feel it too!

Ambience at the touch of a button

Waterlevel lights

Large underwater LED

Lifting fountain light

Illuminated Controls

Lighting to match your mood

Waterlevel lights | Large underwater LED

LED water level lights complimented by a large underwater LED enhance the visual ambience of your experience. Offering a range of customisable colour options, including color-changing modes for dynamic effects, the lights contribute to a mesmerising hot tub experience.

Illuminated lifting fountains

Elevate your experience with illuminated hot tub fountains. These precision-engineered fountains rise at your touch to provide a steady stream of illuminated water, ideal for parties!

Illuminated diverter controls & valves

Our lighting effects aren't just limited to the water. Backlit diverter controls and air valves add a distinct touch of elegance and make adjusting settings at night a pleasure. These controls are colour-linked to the underwater lighting, creating a uniform ambience.

Discover the healing power and benefits of Hydrotherapy

Stress Relief

Soaking in a spa helps relax muscles, reduce tension, and alleviate stress. The warm water and massaging jets can calm both the body and mind.

Muscle Relaxation

The combination of heat, buoyancy, and hydrotherapy jets can help soothe sore muscles, ease muscle tension, and improve flexibility.

Improved Sleep

Using a spa before bedtime can promote better sleep by helping the body relax and inducing a deeper, more restful sleep cycle.

Stimulated Healing

The combination of heat and hydrotherapy can accelerate healing processes by improving circulation and reducing inflammation.

Lower Blood Pressure

Regular use of a spa may help lower blood pressure levels, especially when combined with relaxation techniques.

Better Circulation

The heat from a spa dilates blood vessels, leading to improved circulation, which can benefit heart health and overall cardiovascular function.

Pain Relief

Spa hydrotherapy can aid in reducing chronic pain conditions such as arthritis, fibromyalgia, and muscle soreness by increasing blood flow and releasing endorphins, the body's natural painkillers.

Weight Management

While not a direct weight loss tool, using a spa can complement weight management efforts by aiding in relaxation, potentially reducing stress-related eating, and promoting better sleep.

Why Oasis Spas?

Oasis Spas is a global brand with over 3 decades of experience.

Our products are enjoyed across Europe, Australia and North America, and trusted by thousands of customers globally.

What sets Oasis Spas apart?

Oasis Spas stands head and shoulders above the competition due to its relentless pursuit of perfection and unwavering focus on premium quality and exceptional after-sales service. When you use an Oasis Spas product, you'll realise why it's in a class by itself.

Exceptional after sales service

We offer robust logistics, storage, and transportation services in Australia, UK, France, Netherlands, Austria, and more. Our dedicated team is committed to providing ongoing support and guidance, ensuring your satisfaction and peace of mind well beyond your purchase.

Manufactured excellence

Produced by Crystal Island, Oasis Spas along with other major world renowned spa brands originate from their state of the art 150,000m² facility. This facility delivers up to 300,000 spas and swim spas annually to approximately 46 countries. As the largest spa production facility globally, coupled with Oasis Spas local support network, it ensures the purchase of the best possible product.
